“On the whole, Robeson Tech is definitely ‘up to par.’ I have interesting instructors who are explicit in their teaching. The students are really exceptional people, and the prejudice is fortunately almost nonexistent here.”

Randy Lewis
Business Administration Student
SGA Vice-President

"I enjoy working at Robeson Technical College for many reasons. I enjoy the diversity of students, the friendliness of faculty and staff, and the opportunity to work in such an attractive setting. RTC is a beautiful example of social architecture."

William F. McNeill
Developmental Studies Instructor

“Robeson Technical College is a challenge to me. It has been a great help in preparing me for the curriculum I plan to study. Teachers have been very encouraging to me, and my class members are great people to learn with.”

Linda Woods
Developmental Studies Student

“Robeson Technical College always strives to put the student first in all of its undertakings whether it be in formal educational programs or in its special student activities. Through formal channels, such as the Student Government Association, and informal channels such as conversations with individual students or their visits to the Student Services Division of the college, the faculty and administration seek to learn the preferences of the students. Then, all feasible efforts are made with the resources available to carry out the wishes of the students. I believe that historically it can be said that our college’s student activities have been very good.”

Dr. R. Craig Allen
President

"I feel that Robeson Tech has a very good format for the students. The instructors here are considerate. They try to work with students on a one-to-one basis and aid them in any way they can. They demand performance which is also very good."

Rick Jones
Accounting Student
SGA President

“RTC offers you almost any career you could possibly dream of. Students and staff are friendly. The dances and the field days we have help us all to become better acquainted.”

Cathy Sampson
Welding Student

“RTC is a people oriented school. Sometimes we even have students who start with us and go on to get their masters degrees.”

Max Lippard
Vice-President of
Vocational and Technical Programs

“I really like Robeson Tech because of the supporting cast I work with.”

Kenny Wilson
Coordinator of Handicapped Services

“I like the friendly environment, pleasant atmosphere, academic feeling, and the fact that I’m able to teach a variety of courses.”

Jo Bissell
English Instructor

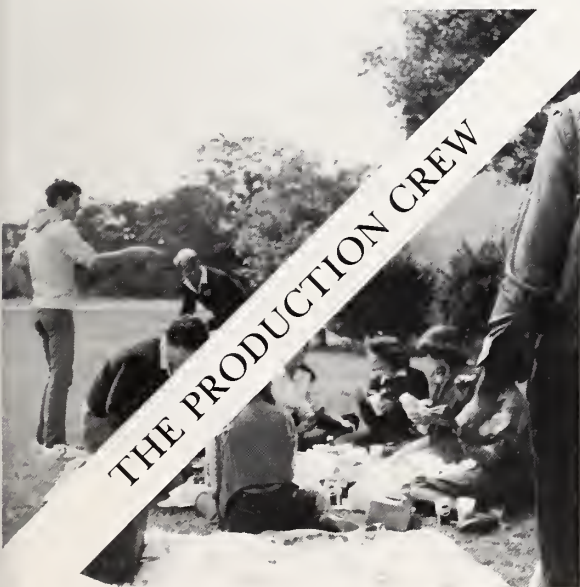

“When I’m working with my craft, I identify with my materials. I try to make my stone come to life.”

Arnold Richardson
RTC Visiting Artist

DIRECTIONS STAFF
